The report on this page is an average quote of specific wool types at the Australian market as described. Prices are US cents per pound.

MF4: Best style & length, table classed & skirted; MF5: Good style & length, bellies out & skirted; MF6: Average style & length, bellies out & unskirted.

XB descriptions: same as merino types above.

MP5: Australian Pieces-good style, variable length-may equate to some US unclassified &/or unskirted wool; MB5: Australian Bellies-good style, combing length.
